Save you valuable space on your desktop by the help of Desktop Wallpaper. This app offers you a tool for freeing up your desktop by replacing the home screen with images you can keep as wallpaper. To use the feature, you need to download the wallpaper files and then save them to your computer's hard drive. This will be enough

to begin, since there are many thousands of wallpaper pictures available. Desktop Wallpaper comes with a nice interface. You'll find it easy to browse through the pictures. You can cycle through the pictures by using the inbuilt slideshow or get a more detailed look at each one by means of the thumbnail view. If you need more personalization options, you can also

choose what you'd like to have on the top and the bottom of your desktop wallpaper. In addition, you can modify the time when your wallpaper changes and the frequency at which it does so. There are also quite a few option adjustments, such as the inclusion of the current date. This application is free to use, but the official site may require you to register in order to get full

access to all the features. Desktop Wallpaper Description: This application is designed to create a wallpaper on your desktop. Although it offers rather limited personalization options, it can fulfill your basic needs. The homepage of this application has some photos for your viewing pleasure. As you browse through the photos, the window will change and

will include some of them.
The pictures don't have
any watermarks or other
identifying information.
Personalize your desktop
computer by making your
own background images.
It's easy to do with this
application. It will allow
you to create a complete
screen saver that has
images and texts as well.
You can include whatever
you like within the desktop
image, such as messages,

icons, or decorative fish. The interface is quite easy to use. The screensavers are stored within folders, which you can organize within the program. The app is also easy to install. In order to get started, you just need to save the required pictures to your computer's hard drive. You can also make as many desktop backgrounds as you like. You can also preview them before

saving. Timevue is a nice application to create desktop backgrounds. It's easy to use, is free to try, and offers limited but detailed customization options. Timevue Description: In case you're looking for one of the
