For TORRENT DOWNLOAD LINK: > It would take me 50 minutes to install the full game but maybe thats me I dunno, I'm gonna go see what happens. If you still have these games remove them from your filesystem, write down your DLC code, then go to your attic (videogame) and remove them, make sure you have all their files all hidden in you pc or browser, then press any key and it will load all the content up and when the PS3 boots it will look for all the content again. Make sure there are no files there when you boot up and that the video files you made are on your disc, copy the Save marker* and any Data disc* from your video folder (if the games was installed with a Data disc it will be in the video folder), extract everything on the folder named "info" from your Fire with Fire program* and patch the jump to both virtual console games, I think the first one is
