contents: Introduction to Medical Imaging.Q: Is there a way to have the background elements of a list view be blurry? I am trying to create a blurry background on my list view with a image. I have been reading multiple sources but I can't seem to figure out how to accomplish this in an efficient manner (I'm pretty new to programming and Android). My current method works but it's not that aesthetic so I was wondering if there was a way to use a blurred image instead of just a solid image. Here is my code so far: A: You could do this by making a "Bl 6d1f23a050
